

# InterviewUnlocked

**Your personalized AI Powered Interview Companion**

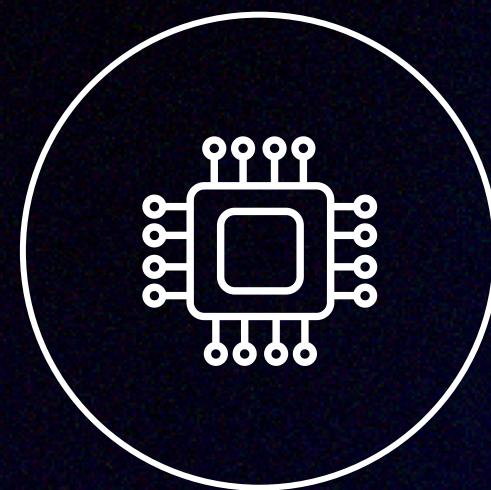

# Not Just Practice - Personalized Insights

Our system analyzes:

- Your resume
- The job description
- The company's expectations

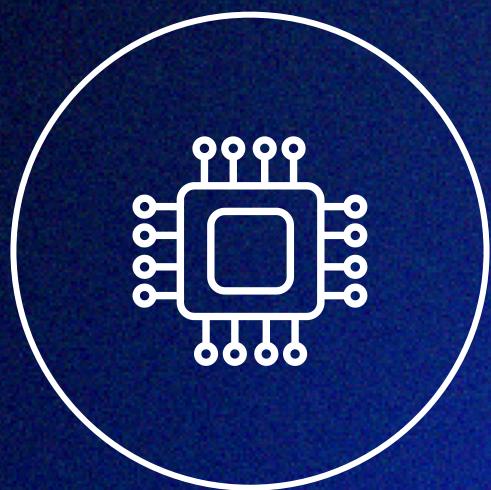

Provides feedback aligned to your strengths and goals

# A Smart Pipeline build for personalization !

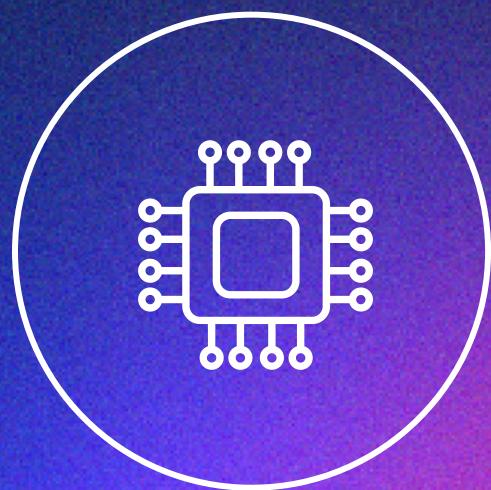

Knowledge  
Agent

Pulls real world rubric  
insights scraped from popular  
internet discussions

Question  
Generation Agent

Generates questions tailored  
to your role and specific  
company

Evaluation Agent

Evaluates your answers and  
gives rubric-specific feedback

# Why you will study smarter, not harder!

- The OpenAI APU infers how your profile maps to what the company looks for
- The system suggests only highly relevant topics and problems scraped from popular internet forums
- Later phases will assess your responses and give targeted feedback

# Scalable. Explainable. Personal

Not Generic

Everything adapts to your job  
and resume

Explainable

Get reasoning behind every  
rubric tip, and question

Modular

Swap agents, expand tools or  
tune to different roles

Scalable

RAG + FAISS lets the system  
learn over time
